The client services team provide a range of services. These include teaching epilepsy self-care, developing Seizure Management Plans, NDIS assistance and education for individuals and family members. The education sessions cover general information about epilepsy and seizure types, including epilepsy first aid management and emergency medication administration. This training is provided at schools, preschools, childcare centres, workplaces, community groups and disability service providers. The individual and family members can attend the centre for education and support. Zoom sessions are provided for those living in regional centres and the Northern Territory.

Our vision is to be a Centre of excellence and the leading provider of services, all aimed to improve the welfare of those affected by epilepsy in South Australia and the Northern Territory.

Our services include:

- NDIS partnership
- Epilepsy management support
- Care plan development
- Employment support
- Resources
- Collaboration and networking with other agencies
- Zoom education
- Epilepsy First Aid training
- Emergency medication training
- Epilepsy education for
 - Schools, Kindergartens and Child Care Centres
 - Workplaces
 - Sports groups
